ADVANCED SKIN REPAIR TREATMENT

Wished I discovered this product sooner!

I'm really impressed with the RecoverX cream. After several weeks of using the cream, I still have over half of it left, and I definitely see improvement in my skin!

- Jennifer P

It takes less than 2 minutes a day.

1. Clean your face
Shower or wash your face before applying Recover X. Removing makeup and dirt before applying Recover X will allow the serum to most effectively heal the skin. Many users also like to exfoliate before applying Recover X.

2. Use a small amount
Take a dime-sized portion of Recover X and apply with either the palm of your hands or the application spatula. A little goes a long way!

3. Apply to the desired area
Use gentle circular motions to apply Recover X until the product has been absorbed by the skin. Recover X boosts moisture by 130% within 30 minutes of application.

4. Continue with your normal skincare routine
And that is it! Recover X works alongside makeup, sunscreen, toner, and other parts of your normal skincare regimen.
